EXPERIENCE

QA Analyst — Hermit Crab Game Studio

Nov 2022 – Present

- Manual QA across Roblox, Fortnite (UEFN), The Sandbox, mobile, PC/Steam and Lume Pad 3D: functional, regression, smoke, integration and exploratory testing
- Create and run test cases and exploratory scenarios from requirements and product risk, setting test scope and priorities per milestone across 4–6 concurrent projects
- Reproduce and document defects with steps, expected and actual results, severity and evidence (adb/logcat, Firebase Crashlytics), then verify the fixes
- Report QA status, risks and a go/no-go recommendation to Production for 4–8 release candidates per month, and distribute testing tasks within a QA team of 4–6
- Validate platform and store compliance for Roblox, Fortnite (UEFN), The Sandbox, App Store and Google Play, with mobile builds distributed through TestFlight and Google Play Console tracks
- Test gameplay, UX and FTUE, multiplayer, device compatibility (low-end to reference tiers), accessibility and localization, including gamepad play on PC
- Validate analytics events (GameAnalytics, Firebase, Roblox Analytics) and test APIs with Postman
- Test 40+ partner-studio ports to carrier (telco) stores through Gameloft and to Leia's Lume Pad 1 and 2 3D tablets (3D effect, performance, controls and store requirements), plus web releases on CrazyGames

4–6 concurrent projects · 4–8 release candidates validated per month · QA team of 4–6
