PROFESSIONAL SUMMARY

Game QA Analyst with 4 years of experience in game QA and 7 years in technology, with hands-on experience across more than 80 games and interactive experiences for Roblox, Fortnite/UEFN, The Sandbox, mobile, and PC/Steam. Experienced in test planning and execution, defect investigation, regression testing, build/release validation, risk assessment, and technical QA involving APIs, SQL, analytics, and logs. Since May 2026, also serving as Lead QA, coordinating a four-person team.

PROFESSIONAL EXPERIENCE

Qa Analyst — Hermit Crab Game Studio

Nov 2022 – Present

- **Multi-platform QA:** execution of gameplay, functional, regression, smoke, exploratory, multiplayer, and UX/FTUE testing across Roblox, Fortnite/UEFN, The Sandbox, mobile, PC/Steam, and Lume Pad 3D, including progression, economy, accessibility, and localization validation.
- **Test Planning & Coverage:** creation of test cases, checklists, and exploratory scenarios based on requirements and risks, defining scope, coverage, and testing priorities.
- **Defect Management & Regression:** identification, reproduction, and documentation of defects with reproduction steps, expected results, actual results, severity, and supporting evidence; follow-up on fixes, retesting, and regression validation.
- **Technical Investigation:** use of adb/logcat and Firebase Crashlytics for technical investigation; analytics validation using GameAnalytics, Firebase, and Roblox Analytics.
- **Builds & Releases:** build validation, release readiness assessment, risk evaluation, and QA go/no-go recommendations based on test results and coverage, in collaboration with Production.
- **Compliance, Compatibility & Performance:** validation for Roblox, Fortnite, The Sandbox, App Store, Google Play, Gameloft, CrazyGames, and other telco storefronts, including testing across different devices, screen sizes, resolutions, and control schemes.
- **Project Scale:** participated in QA for more than 20 game ports from partner studios for mobile carrier storefronts via Gameloft, Leia Lume Pad 3D tablets, and web releases on CrazyGames.
- **Collaboration:** continuous collaboration with QA, Development, and Production teams to analyze issues, risks, fixes, and overall release quality.

Lead Qa Responsibilities

Since May 2026

- Coordination of a four-person QA team, including distribution of testing scope and activities.
- Monitoring of test coverage, risks, and validation status, providing QA go/no-go recommendations and reporting directly to Production.

Qa Analyst — Space Bit Games

Sep 2022 – Nov 2022

- **Logic Pic (LiveOps):** tested new levels, features, and updates in frequent release cycles, covering functionality, usability, and stability.
- **Defect Management:** documented and tracked bugs, retested fixes, and maintained daily communication with the development team.
- **Arcane Merge - Fantasy Mix:** focused on test execution, bug reporting, bug backlog assessment, and fix validation.

PREVIOUS EXPERIENCE IN SOFTWARE DEVELOPMENT & IT

Backend Developer — PHP — Cooper Tec | Cooper Card

May 2019 – Sep 2019 | Aug 2020 – Jun 2021

PHP, web services, APIs, databases, and application integrations.
