

Giovanni da Silva Mariano

Game QA Analyst

Santo Antônio da Platina, PR, Brazil · UTC-3 | giovannis.mariano@gmail.com | linkedin.com/in/giogamedev | github.com/gio-gamedev | Discord: giogamedev | gio-gamedev.github.io

SUMMARY

Game QA Analyst with 4 years in game studios and 7 years in technology. QA on 81 games and interactive experiences across Roblox, Fortnite/UEFN, The Sandbox, mobile, PC and Lume Pad 3D, in teams of four to five people. Technical background in web and backend development: API testing, analytics validation and technical investigation, weighing technical behavior and player experience.

Santo Antônio da Platina, PR, Brazil · UTC-3. Open to on-site, hybrid and remote roles · full-time, contractor and B2B.

EXPERIENCE

QA Analyst — Hermit Crab Game Studio

Nov 2022 – Present

- **Multiplatform Game QA:** gameplay, functional, regression, smoke, exploratory, UX/FTUE and multiplayer testing on Roblox, Fortnite (UEFN), The Sandbox, mobile, PC/Steam and Lume Pad 3D — covering progression, in-game economy, accessibility and localization, and including 20+ partner-studio ports to carrier (telco) stores through Gameloft and to Leia's Lume Pad 3D tablets, plus web releases on CrazyGames.
- **Test Planning, Coverage & Risk:** test cases, checklists and exploratory scenarios written from requirements and product risk, with test scope, coverage and priorities defined per milestone.
- **Defect Lifecycle & Technical Investigation:** defects identified, reproduced and documented with steps, expected and actual results, severity and evidence, then tracked, verified after the fix and covered by regression — investigated with adb/logcat and Firebase Crashlytics, with analytics events validated on GameAnalytics, Firebase and Roblox Analytics, and APIs tested with Postman.
- **Release / Quality Validation:** build validation, release readiness, risks and a go/no-go recommendation for Production, with platform and store compliance for Roblox, Fortnite, The Sandbox, the App Store and Google Play, plus compatibility and performance checks across devices from low-end to reference tiers, different screen sizes and resolutions, frame behavior and gamepad controls on PC.
- **Cross-functional Work, Process & Ownership:** day-to-day work with QA, developers, producers and other areas on problems, risks, fixes and quality feedback, with improvement suggestions shared as the game evolved; AI used to support test documentation, information organization, research, analysis, test-scenario refinement and defect investigation, including a contribution of small adjustments and improvements to an internal QA tool, with AI and programming as support.

Temporary Lead QA assignment (since May 2026): coordinated a QA team of four — three QAs, one of them an intern, and myself — distributing test scope among the team, approving build go/no-go and reporting status and risk directly to Production.

QA Analyst — Space Bit Games

Sep 2022 – Nov 2022

- **Logic Pic, a product already in LiveOps:** new levels and updates tested through frequent release cycles, with test scenarios created and run for functionality, usability and stability.
- **Defect tracking:** defects documented, followed on the backlog and re-tested after the fix, in day-to-day communication with the team.
- **Arcane Merge – Fantasy Mix:** a shorter involvement, focused on running tests, documenting defects and verifying fixes.

Titles tested: Logic Pic · Arcane Merge – Fantasy Mix.

- **Backend Developer — PHP — Cooper Tec (Aug 2020 – Jun 2021):** Developed and maintained PHP backend systems and web services, working with APIs, databases and application integration.
- **Web Developer — PHP — Mark Up (Sep 2019 – Aug 2020):** Developed and maintained web applications with PHP/CakePHP, JavaScript and React.
- **Web Systems Developer — PHP — Cooper Card (May 2019 – Sep 2019):** Developed PHP backend web services, and tested APIs and applications with SQL data validation.
- **IT Assistant — Sercomputer (Feb 2014 – Mar 2015):** Provided technical support and maintenance for computers, peripherals, software and network devices.

SKILLS

Testing & quality: Gameplay testing, Functional testing, Regression testing, Exploratory testing, Smoke / build verification, Compatibility testing, Multiplayer testing, UX / FTUE testing, Performance testing, Accessibility QA, Localization QA, Manual testing.

Test design & release: Test planning, Test cases, Checklists, Risk-based testing, Bug reporting / defect tracking, Defect investigation, Fix verification, Release validation, Platform / store compliance, LiveOps / update validation, Go / no-go support.

Technical QA: adb / logcat, Firebase Crashlytics, Chrome DevTools, Postman, REST APIs, SQL, JSON, Analytics validation.

Tools: Jira, ClickUp, HacknPlan, Notion, Miro, Android Studio, TestFlight, Google Play Console, Git.

Platforms & engines: Roblox, Fortnite (UEFN), The Sandbox, iOS & Android, PC / Steam, Lume Pad 3D, Unity, Roblox Studio, Unreal Engine, Construct, GameMaker.

Technical background: PHP, JavaScript, React, Agile / Scrum, AI-assisted QA, Internal QA tooling support.

SELECTED PROJECTS

81 games tested. Selected titles (public figures belong to each product and its whole team):

- Sportia (PC / Steam).
- Football Tycoon (Soccer Tycoon) (Fortnite/UEFN) — 110M+ minutes played · 18K+ peak concurrent players (fortnite.gg, Sep 2026).
- Pro Kick Simulator (Roblox) — 1.1M+ visits (Roblox, Sep 2026).
- Logic Pic (Mobile, Space Bit Games) — 5M+ downloads (Google Play, Sep 2026).
- Rumble Kong League (Mobile) — 50K+ downloads (Google Play, Sep 2026).
- The Walking Dead: Through the Tower (The Sandbox).

AWARDS

Winner — Best Team QA — Testathon World Tour São Paulo (2024), team award.

EDUCATION

- Technology Degree in Digital Games — FATEC Ourinhos (Faculdade de Tecnologia de Ourinhos) (Feb 2016 – Dec 2018).
- IT Technician — SENAI Santo Antônio da Platina (PR) (Jul 2012 – Dec 2013; 1,080 hours · PRONATEC program).

LANGUAGES

Portuguese — Native · English — B1 (EF SET: Reading & Listening) · French — Beginner.

CERTIFICATIONS

- EF SET English Certificate — B1 Intermediate (41/100, reading and listening), Sep 15, 2026 — cert.efset.org/zCsGzw
- Scrum Foundation Professional Certificate (SFPC), CertiProf, 2020.
- Usability Evaluation (40 h), Lúmina — UFRGS, 2018.
- Automated Tests + Complete Software Testing Course — 5 hours — Udemy — Dec 2021.

ACADEMIC PROJECTS

Coração do Inverno (final course project, 2018); APAM – FATEC Ourinhos (extension project, 2018); Projeto Game Office – FATEC Ourinhos (study group, 2017); Mind Buster (requirements and rules, 2017); Game Island — O Herói dos Quatro Reinos (board game, 2016); Coffee Rush (game jam, producer, Unity).
